Victoria Pavilion can be divided into three distinct spaces, all available individually or in combination for events of any type and size.

The divisible spaces are equipped with individual entry points, and provide you with the flexibility every modern event needs.

A

This space can be combined with the Atrium to provide a VIP area or an additional arrival and registration space.

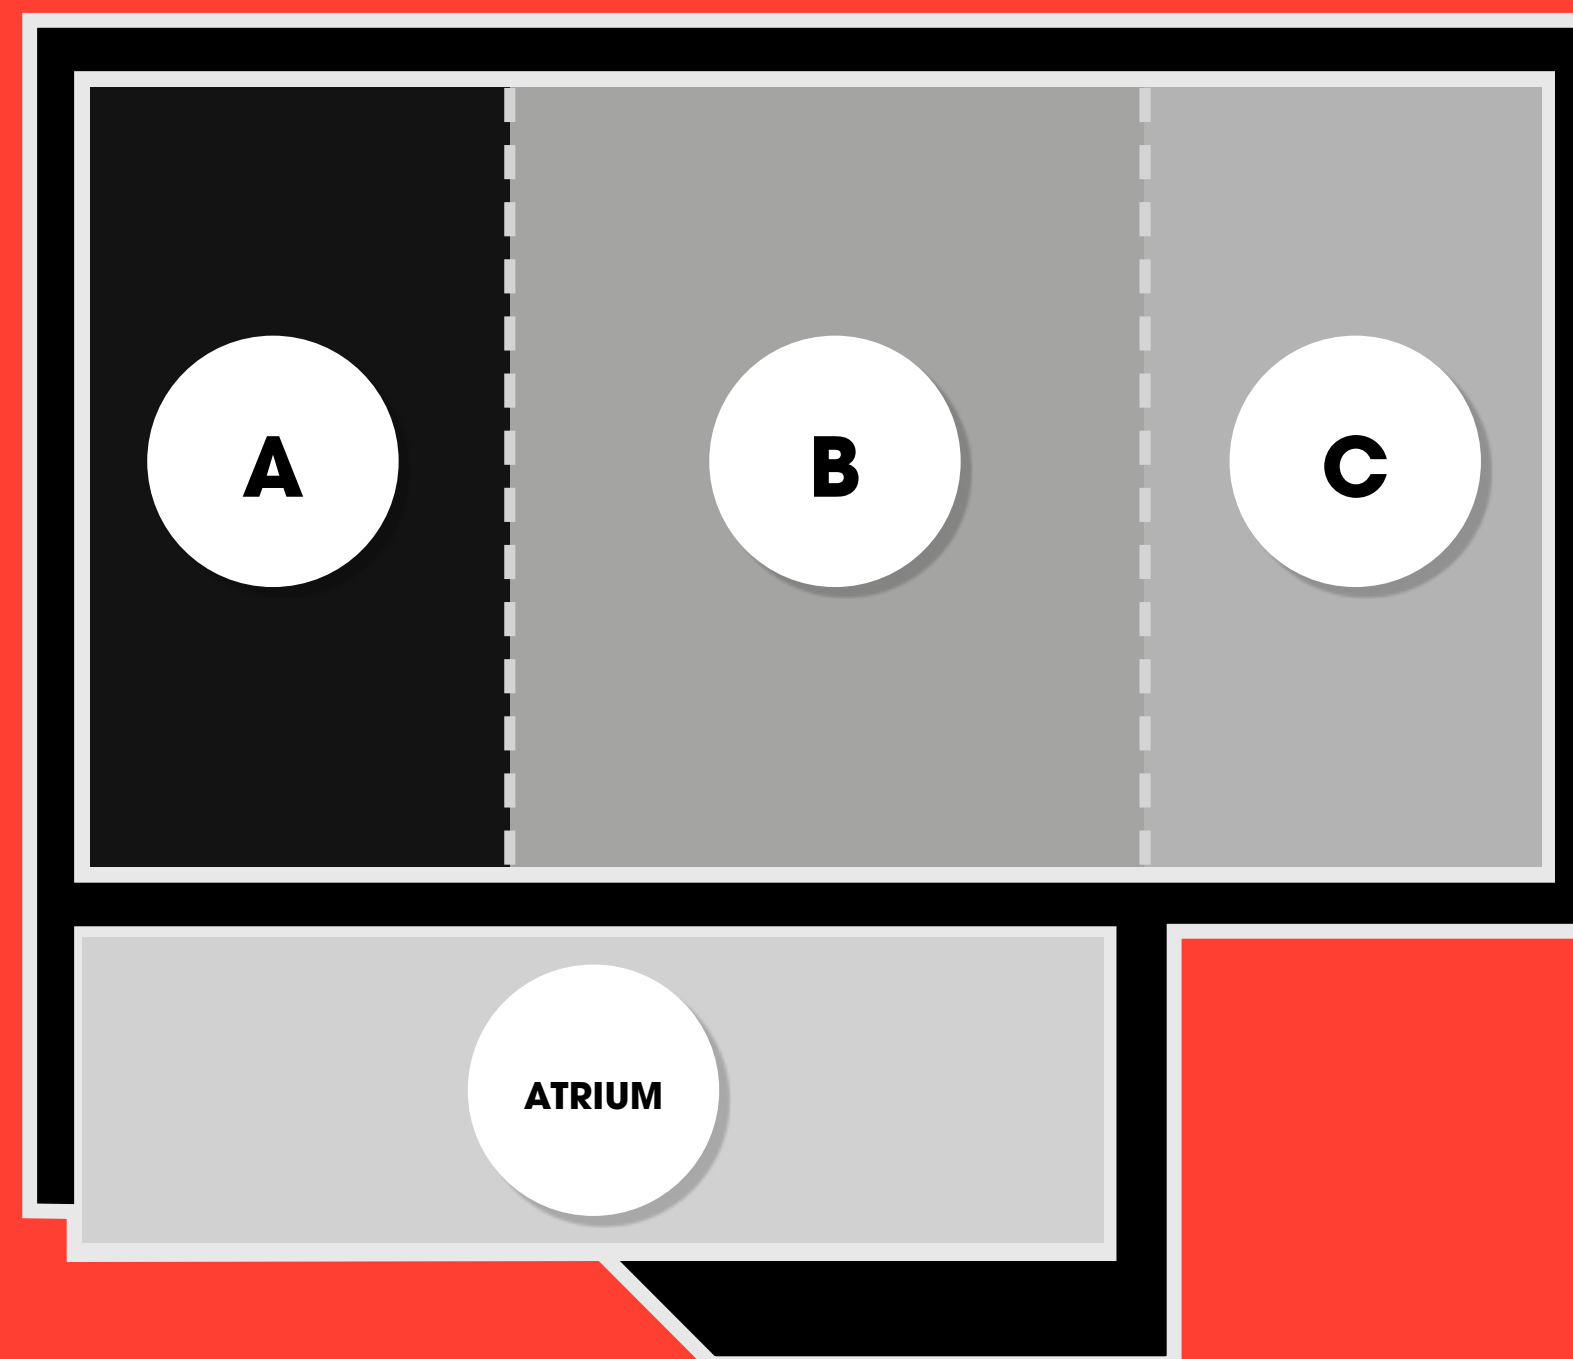

B

Commanding the largest footprint of the three, and with its own entry from the Atrium, combine with spaces A or C for large banquet events.

C

A feature of this space is the undercover link, offering ease of access for large scale exhibitions straight through to your event. Alternatively, when divided, space C becomes the perfect green room or speakers' preparation room.
