BREAK IT DOWN - THE SPACES

Victoria Pavilion can be divided into three distinct spaces, all available individually or in combination to provide flexibility for events of any type and size. Separated by a custom designed draping system, the divisible spaces provide you with the flexibility every modern event needs. Equipped with individual entry points, you're spoilt for choice.

AREA A

The smallest of the three, this space can be combined with the Atrium to provide a VIP area or an additional arrival and registration space.

AREA B

Commanding the largest footprint of the three, combine spaces A+B for banquet events with up to 800 guests. In isolation, the space offers its own entry from the Atrium and is the perfect option for your conference plenary, with two breakout areas on either side.

AREA C

A key feature of this space is the undercover link, which joins Victoria Pavilion to an exhibition pavilion boasting 10,000sqm, offering ease of access for large scale exhibitions straight through to your event. Alternatively, when divided, area C becomes the perfect green room or speakers' preparation room.
